

JEOPARDY PROGRAMMING GAME REPORT

=====

Case ID: GAME001

Players: Alice, Bob, Charlie, Diana

Gameplay Summary:

Turn 1: Alice selected Variables & Data Types for 100 pts

Question: Which of the following declares an integer variable in C++?

Answer: C — Incorrect (+100 pts)

Score after turn: Alice = 0

Turn 2: Bob selected Variables & Data Types for 200 pts

Question: Which data type is used to store a single character?

Answer: C — Incorrect (+200 pts)

Score after turn: Bob = 0

Turn 3: Charlie selected Variables & Data Types for 300 pts

Question: What is the value of x after `int x = 5/2;`?

Answer: A — Correct (+300 pts)

Score after turn: Charlie = 300

Turn 4: Diana selected Variables & Data Types for 400 pts

Question: Which of the following is a floating-point literal?

Answer: A — Incorrect (+400 pts)

Score after turn: Diana = 0

Turn 5: Alice selected Variables & Data Types for 500 pts

Question: Which operator is used to get the remainder?

Answer: B — Correct (+500 pts)

Score after turn: Alice = 500

Turn 6: Bob selected Control Structures for 100 pts

Question: Which statement is used to make a decision?

Answer: B — Incorrect (+100 pts)

Score after turn: Bob = 0

Turn 7: Charlie selected Control Structures for 200 pts

Question: What is the output of: if (5 > 10) cout << 'Hi'; else cout << 'Bye';

Answer: D — Incorrect (+200 pts)

Score after turn: Charlie = 300

Turn 8: Diana selected Control Structures for 300 pts

Question: Which loop always executes at least once?

Answer: A — Incorrect (+300 pts)

Score after turn: Diana = 0

Turn 9: Alice selected Control Structures for 400 pts

Question: Which keyword exits a loop immediately?

Answer: D — Correct (+400 pts)

Score after turn: Alice = 900

Turn 10: Bob selected Control Structures for 500 pts

Question: How many times will the loop for(int i=0;i<3;i++) run?

Answer: A — Incorrect (+500 pts)

Score after turn: Bob = 0

Turn 11: Charlie selected Functions for 100 pts

Question: Which keyword is used to define a function returning no value?

Answer: C — Incorrect (+100 pts)

Score after turn: Charlie = 300

Turn 12: Diana selected Functions for 200 pts

Question: What is the purpose of a function parameter?

Answer: A — Incorrect (+200 pts)

Score after turn: Diana = 0

Turn 13: Alice selected Functions for 300 pts

Question: "What is the return type of int add(int a

Answer: D — Incorrect (+300 pts)

Score after turn: Alice = 900

Turn 14: Bob selected Functions for 400 pts

Question: Which statement exits a function and sends a value back?

Answer: C — Incorrect (+400 pts)

Score after turn: Bob = 0

Turn 15: Charlie selected Functions for 500 pts

Question: "If a function is not declared before use

Answer: C — Incorrect (+500 pts)

Score after turn: Charlie = 300

Turn 16: Diana selected Arrays for 100 pts

Question: Which declares an array of 5 integers?

Answer: A — Correct (+100 pts)

Score after turn: Diana = 100

Turn 17: Alice selected Arrays for 200 pts

Question: What is the index of the first element in a C++ array?

Answer: C — Incorrect (+200 pts)

Score after turn: Alice = 900

Turn 18: Bob selected Arrays for 300 pts

Question: Which loop is best for iterating a fixed-size array?

Answer: D — Incorrect (+300 pts)

Score after turn: Bob = 0

Turn 19: Charlie selected Arrays for 400 pts

Question: What happens if you access out-of-range index?

Answer: A — Incorrect (+400 pts)

Score after turn: Charlie = 300

Turn 20: Diana selected Arrays for 500 pts

Question: How many elements in `int arr[3][4];`?

Answer: B — Correct (+500 pts)

Score after turn: Diana = 600

Turn 21: Alice selected File Handling for 100 pts

Question: Which header file is used for file I/O?

Answer: B — Incorrect (+100 pts)

Score after turn: Alice = 900

Turn 22: Bob selected File Handling for 200 pts

Question: Which stream is used to write to a file?

Answer: D — Incorrect (+200 pts)

Score after turn: Bob = 0

Turn 23: Charlie selected File Handling for 300 pts

Question: Which method opens a file in append mode?

Answer: B — Incorrect (+300 pts)

Score after turn: Charlie = 300

Turn 24: Diana selected File Handling for 400 pts

Question: Which function closes a file?

Answer: A — Incorrect (+400 pts)

Score after turn: Diana = 600

Turn 25: Alice selected File Handling for 500 pts

Question: What happens if a file fails to open?

Answer: D — Incorrect (+500 pts)

Score after turn: Alice = 900

Final Scores:

Alice: 900

Bob: 0

Charlie: 300

Diana: 600
